A man with a beard, wearing a dark tactical jacket, safety glasses, and large black earmuffs, is aiming a CZ DUTY pistol. He is in the rain, with water droplets visible in the air and on his jacket. The pistol is black with a red dot sight and a flashlight mounted on the front. The background is dark and rainy.

CZ DUTY

The CZ DUTY represents the next generation of CZ striker-fired pistols, combining a serialized modular chassis, a refined trigger system, advanced ergonomics, and direct-mount optics-ready capability in a pistol engineered for serious use.

CZ DUTY

Main features

PROVEN DURABILITY

We guarantee a 50,000-round service life or 25,000 rounds of overpressure ammunition (DM51 loaded to 30% higher pressure), including a 10,000-round no-parts-change period. A durability standard we stand behind.

FULLY AMBIDEXTROUS

CZ DUTY features fully ambidextrous controls. The slide release, magazine release, and manual safety are comfortable for both right- and left-handed shooters right out of the box.

MODULAR CHASSIS DESIGN

Enhanced modularity is achieved through a serialized chassis that holds all functional components together, allowing users to configure the pistol with different grip modules, barrel lengths, and magazine capacities.

REFINED STRIKER-FIRED TRIGGER

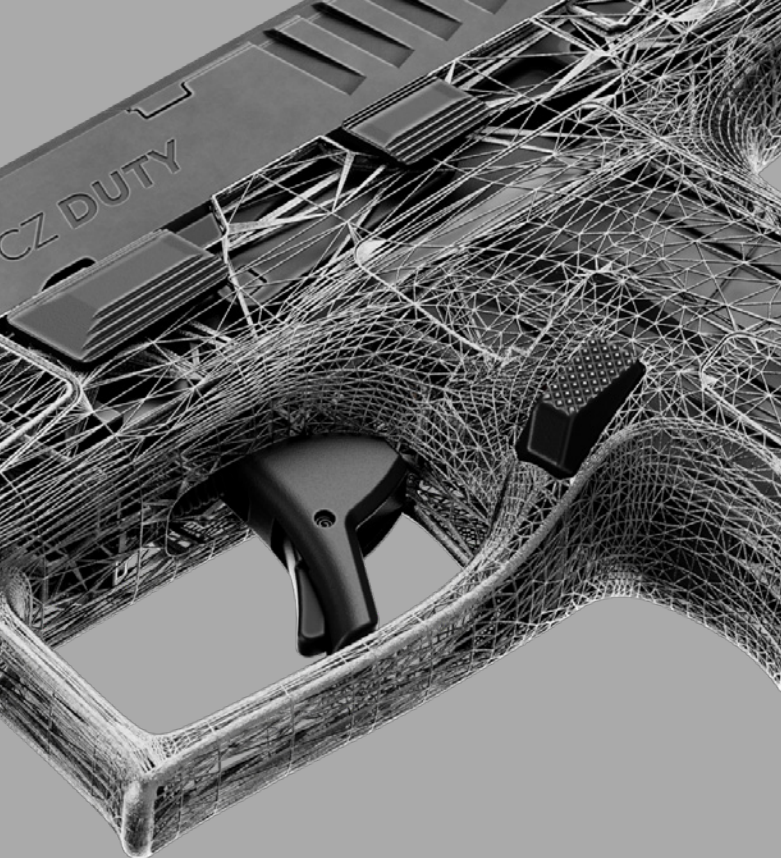

CZ DUTY features a patented striker-fired trigger system. True to CZ DNA, the CZ DUTY offers very smooth travel, a crisp and clean break, and a short, easy-to-feel reset. The result is a trigger designed to support confident operation and repeatable performance shot after shot.

TRIGGER-FREE DISASSEMBLY

CZ DUTY can be safely disassembled without pulling the trigger, helping minimize the risk of unintentional discharge.

ADVANCED ERGONOMICS

The CZ DUTY's ergonomics were developed using advanced human-factors modeling through CZ's DiFEND methodology, rooted in NASA-supported human-factors research, building on an approach already applied to the CZ P-10 series.

WELL-BALANCED

The overall design of CZ DUTY is aimed at achieving ideal balance in the shooter's hand. The center of gravity is optimally placed to provide an excellent shooting experience. With each shot, the gun naturally settles back on target. This supports faster follow-up shots while maintaining accuracy and control.

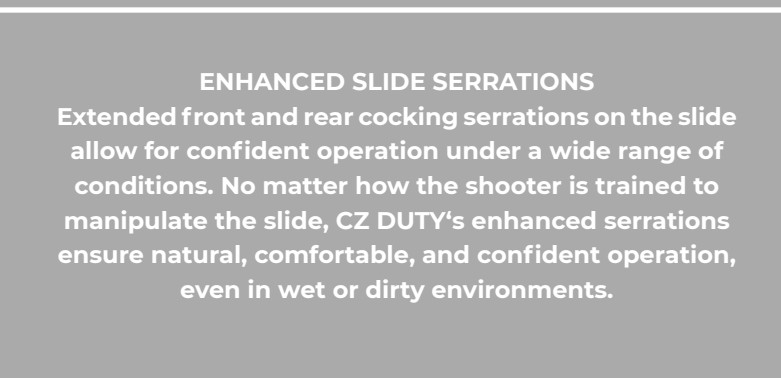

SAFETY FIRST

Safety was engineered into the CZ DUTY from the beginning. The pistol features a three-stage drop safety system and is also available with an ambidextrous manual safety, giving shooters multiple layers of confidence in handling and operation.

IMPROVED DIRECT-MOUNT OPTICS-READY INTERFACE

The redesigned Optics-Ready system allows shooters to mount optics with a wide variety of industry-standard footprints without the use of adapter plates. The red dot sight mounts directly to the slide using the included pin set.

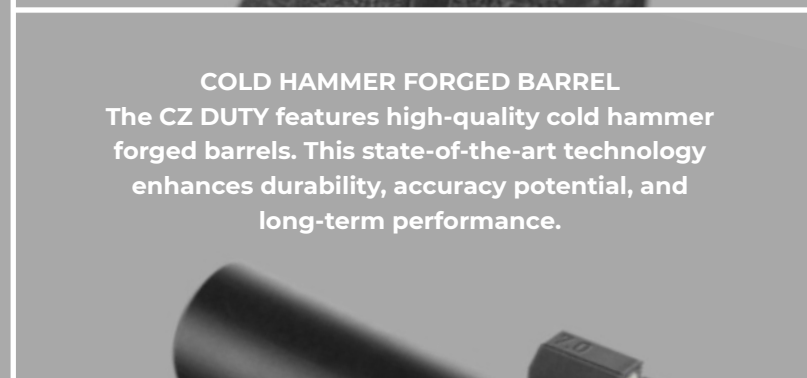

ENHANCED SLIDE SERRATIONS

Extended front and rear cocking serrations on the slide allow for confident operation under a wide range of conditions. No matter how the shooter is trained to manipulate the slide, CZ DUTY's enhanced serrations ensure natural, comfortable, and confident operation, even in wet or dirty environments.

PRONOUNCED GRIP CUTOUT

The CZ DUTY grip cutout, combined with a serrated magazine base plate, gives the shooter extra control when reloading. Especially in harsh conditions involving mud, sand, or freezing temperatures, the cutout helps the shooter maintain a firm grip on the magazine when the environment gets in the way of a smooth reload.

COLD HAMMER FORGED BARREL

The CZ DUTY features high-quality cold hammer forged barrels. This state-of-the-art technology enhances durability, accuracy potential, and long-term performance.

CZ DUTY MAGAZINES

CZ DUTY magazines provide top-notch durability and long-term reliability. A redesigned base plate provides additional purchase for more positive control during reloads. CZ DUTY magazines come in 15- and 17-round capacities, with the option to use an extended base plate.

THREE GRIP MODULES

Three grip-module sizes provide different palm-swell profiles and allow shooters to adjust trigger reach.

NEW

CZ DUTY 4.0 C

Compact frame without a manual safety, ideal for shooters who prefer simple yet safe handling.

CZ DUTY 4.0 C MS

Compact frame suitable for everyday carry, equipped with an ambidextrous manual safety for maximum security.

MODEL	CALIBER	MAGAZINE CAPACITY	WEIGHT with empty magazine (g)	DIMENSIONS L × W × H (mm)	BARREL LENGTH (mm)	SIGHTS	THREAD	TRIGGER PULL (N)	TRIGGER TRAVEL (mm)	TRIGGER RESET (mm)	FRAME	SAFETY FEATURES
CZ DUTY 4.0 C	9 × 19	15	770	188 × 33 × 135	102	Luminescent / Tritium	No	25±4	9±1	4	Fiberglass-reinforced polymer	Trigger safety, Trigger bar safety, Firing pin block
CZ DUTY 4.0 C MS	9 × 19	15	770	188 × 33 × 135	102	Luminescent / Tritium	No	25±4	9±1	4	Fiberglass-reinforced polymer	Trigger safety, Trigger bar safety, Firing pin block, Manual safety

NEW

CZ DUTY 4.0 F

Full-size frame without a manual safety, suitable for a wide range of applications in both the civilian sector and armed forces.

CZ DUTY 4.0 F MS

Full-size frame equipped with a manual safety, designed primarily for duty use with uncompromising emphasis on safety.

MODEL	CALIBER	MAGAZINE CAPACITY	WEIGHT with empty magazine (g)	DIMENSIONS L × W × H (mm)	BARREL LENGTH (mm)	SIGHTS	THREAD	TRIGGER PULL (N)	TRIGGER TRAVEL (mm)	TRIGGER RESET (mm)	FRAME	SAFETY FEATURES
