## Safety and reliability you can trust.

**Hybrid double layered barrel fuses a monolithic aluminum barrel with a polymer body for increased strength and enhanced protection against adverse conditions**

**Ambidextrous safety, shell loading from either side of CZ GL (left, right), and mounting of sight adapter on either side of rifle ensure comfortable operation for right- and left-handed users**

**Tool-free installation on STANAG 4696 rails for underbarrel mounting on rifles**

**Integrated grenade holder prevents grenade from falling out of the chamber**

**DAO Trigger**
- **Increases safety**
- **Designed to feel like double stage trigger**
- **In case of misfire, users can repull trigger**

**Safety lever with 60 degrees of travel reduces chance of accidental activation**

**Barrel lock safety prevents firing if barrel in unlocked position**

**Chamber indicator allows for visual and tactile monitoring of loading status**

**Unlocked barrel indicator**

**4-position telescopic stock for comfortable operation when loaded down with gear and various combat scenarios**

**CZ GL Carrier equipped with integrated extractor for easier removal of empty shells**
